To our new Oxley Primary School Family,

**Re: Xuno – Computer Application for Communication to parents at OPS**

Please find following details regarding the program XUNO. Oxley Primary School uses this program to communicate with parents. Xuno is the place to let us know when and why your child is absent from school, to find our newsletters, to book in for meetings, camps and excursion information and also where we post important news that we need you to know.

Once your child is enrolled with the school, it would be greatly appreciated if you could perform the following task. Please enter in your search engine:  
<https://oxleyps.xuno.com.au/index.php>

You will see the following screen:

Oxley Primary School

Username or email address...

Password...

Sign-in

Forgot your username or password?

Unauthorised access or use of this service or data is prohibited and is a criminal offence.

Your username will be the email that you supplied on your enrolment form, the school id (if requested) is 9ieb1m and you can create your own password.

Please press on the blue sign-in button and this should activate your registration. You will see a welcome screen where you can either take or skip a tour. You will now be registered with Xuno.

If you do not have any luck, please come in and see me and we will endeavour to get you linked up ASAP.

Yours truly,

**JAYE MILLER**
